Welcome to NACE CORRTRIN 2019!

Dear Attendees,

NACE International is pleased to welcome you to CorrTrin Conference 2019. For the first time, NACE hosts this corrosion conference in the beautiful island lying on the northeastern coast of Venezuela, Trinidad.

On 26th April 2019, corrosion industry professionals and government officers from throughout the world will gather at Hyatt Regency Trinidad to share insights, exchange experiences, and promote the latest corrosion prevention and control solutions to address the growing need for corrosion control management in Trinidad and the rest of South America.

This premier conference will provide the tools and techniques to tackle current and future corrosion control projects. The keynote speaker will share his experiences in the management of internal corrosion for upstream oil & gas facilities. Other presentations include integrity management, impact assessment, pipeline integrity, coatings and applications and corrosion in concrete. We encourage you to read through the full schedule and program in the following pages, as well as introduce yourself to the sponsoring companies.

We are glad that you are here to learn best practices, make industry connections and discover new corrosion control solutions.

Enjoy the conference at the Port of Spain, Trinidad!

Learn. Connect. Discover
**FRIDAY, APRIL 26, 2019**

Code of Ethics

THE FUNDAMENTAL PRINCIPLES
Members uphold and advance the integrity, honor, and dignity of the members’ profession by using their knowledge and skill for the enhancement of human welfare; being honest and impartial, and serving with fidelity the public, their employers, and clients; and striving to increase the competence and prestige of the corrosion engineering profession.

THE FUNDAMENTAL CANONS
A. Members shall hold paramount the safety, health, and welfare of the public in the performance of their professional duties.
B. Members shall perform services only in the areas of their competence.
C. Members shall continue their professional development throughout their careers and shall provide opportunities for the professional development of those members under their supervision.
D. Members shall act in professional matters for each employer or client as faithful agents or trustees and shall avoid conflicts of interest.
E. Members shall build their professional reputation on the merit of their services and shall not compete unfairly with others.
F. Members shall associate only with reputable persons or organizations.
G. Members shall issue public statements only in an objective and truthful manner.
H. Members shall not maliciously injure the reputation, prospects, or business of others, but this does not remove the moral obligation to expose unethical conduct.

NACE International specifically prohibits sexual harassment by or against any employee, member, officer, director, or other volunteer, vendor, or customer; and such conduct will not be permitted or condoned.

Anti-Harassment Policy

NACE is committed to providing an environment free of sexual harassment (which includes harassment based on gender, pregnancy, childbirth, or related medical conditions), as well as harassment based on such factors as race, color, religion, national origin, ancestry, age, physical disability, mental disability, medical condition, marital status, sexual orientation, gender identity, gender expression, workers’ compensation leave, veteran status, or any other condition or characteristic protected by law.

We expect all participants at CORROSION to abide by this Anti-Harassment Policy in all venues at CORROSION, including ancillary events and official and unofficial social gatherings.

- Exercise consideration and respect in your speech and actions.
- Refrain from demeaning, discriminatory, or harassing behavior and speech.
- Be mindful of your surroundings and of your fellow participants.
- Alert NACE staff if you notice harassment.

If you are being harassed, notice that someone else is being harassed, or have any other concerns, please contact Lesley Martinez, Conferences Manager, at +1 832-651-7229 on-site immediately.

Alcohol Consumption Policy

NACE International is committed to the health and well-being of its staff, members, customers, event participants, and vendors. The Association expects individuals who choose to consume alcohol at NACE-affiliated events to do so legally and in moderation. The use of alcoholic beverages by any participant at a NACE-affiliated event shall be in compliance with federal, state and local laws. Persons who infringe upon the rights of others, who conduct themselves in a disorderly manner, or who damage or destroy property shall be subject to disciplinary and/or criminal action. All CORROSION participants are expected to abide by this alcohol policy in all venues at CORROSION, including ancillary events and official and unofficial social gatherings. Participants shall conform to the requirements of this Policy and all other applicable NACE International policies, including but not limited to the NACE Code of Ethics and anti-harassment policies.
IN THE BATTLE AGAINST CORROSION AND TIME, WE’VE GOT YOUR BACK.

In the demanding Oil and Gas business, protection means many things: Protecting assets. Resources. People. And the bottom line.

At Sherwin-Williams Protective & Marine Coatings, we take all of this very seriously. That’s why we’re working on advanced coatings, new application systems, chemistries, and technologies to help you fight off corrosion and knock back father time.
Stop Leaks … FAST with the Stop It® Pipe Repair System

STOP IT® WORKS ON ANY METAL OR PLASTIC PIPE*

The STOP IT® Pipe Repair System includes a strong fiberglass knitted tape, precoated with fast setting water-activated urethane resins, and FIX STIX™, a steel filled hand moldable epoxy.

STOP IT® can be installed by one person with no special tools or hot work, and provides for quick, in-field repairs, returning lines to operation in as little as 30 minutes. Under certain conditions, active pinhole leaks (about 50 PSI or less) may be repaired without shutting down.

Use STOP IT® for: Routine and Emergency Leak Repair • Hazardous Materials • Spill Control • Structural Reinforcement • Sealing Joints • Rebuilding Thinning Walls • Corrosion Proofing • Abrasion Protection • Repairs in Hard to Reach Areas • Underwater Repairs • Electrical Conduit Repairs

Corrosion can happen anywhere. We know how to identify if where and when it does.

Cosasco uses an integrated approach to monitoring corrosion and erosion, knowing that not every monitoring technique is all encompassing. With varying applications and environments, Cosasco identifies the safest and most efficient technique, building a custom system for each and every customer.

- Operate safely and efficiently
- Reduce risk from leaks and system failure
- Optimize chemical dosage
- Reduce inspection and maintenance costs

Uncommon knowledge creates maximum value

In the world of natural gas, the NGC Group is an extraordinary force.

For over four decades, the members of the NGC Group have been co-creators and implementors of a globally admired, proprietary blueprint for sustainable natural gas-based development; a model that ensures Trinidad and Tobago derives maximum value from its natural gas resources. This proven ability and capacity equip us to share this uncommon knowledge with potential, emerging international gas-based jurisdictions, while continuing to secure our business at home, developing our people and securing Trinidad and Tobago’s future.

NGC GROUP OPERATIONS

- Natural gas-based development and merchandising
- Pipeline construction
- LNG production
- Development and management of industrial sites
- Port and marine infrastructure
- Processing, fractionation and marketing of natural gas liquids (NGLs)
- Marketing of compressed natural gas (CNG)

A valued partner. A sound investment. We are the NGC Group.
