

Suggested Student Poster Session - Poster Display Arrangement for CORROSION Conference

Poster display area is 4' high x 8' (1.2 m x 2.4 m) wide. Posters should not exceed the display area.

Helpful hints: Readability is key! Do not mount illustrations/abstract pieces on heavy display board

***This is a suggested layout but is not required. You can arrange your poster however you feel best illustrates your research, but this can serve as a valuable template for presenters.**
