

20TH INTERNATIONAL CONFERENCE ON

Environmental Degradation of Materials in Nuclear Power Systems – Water Reactors

STUDENT TRAVEL APPLICATION

Six (6) travel grants are available for students to attend the Environmental Degradation conference in Snowmass, Colorado, July 17-21, 2022. Each travel grant is worth up to \$1,500 and could be used to cover the cost of airfare, hotel accommodation, and conference registration. Prospective Students must be currently engaged in graduate studies (Masters or Ph.D. level) and working on a material degradation issue connected with light water reactors. The student does not have to present a paper at the conference to be eligible, but the presentation of a paper is considered to be an advantage.

Other requirements are that the student must be fluent in the English language (spoken and written) and must own a laptop computer. The successful students would be required to help run the parallel sessions at the conference. They will help facilitate the "Question and Answer" sessions after each presentation, and would be expected to generate (transcribe) and collate all the questions and answers from authors and attendees in their assigned session in publication-ready format.

Application forms are available on the conference website. In addition to the application, also describe on a separate sheet of paper why you think you should be awarded a travel grant. Limit your response to no more than one (1) page of text with 1.5 line spacing.
